

NOA Bariatric Bed

Wide Sleep Deck

All NOA Bariatric Beds come with a comfortable 42" wide sleep deck that easily adjusts from 80" to 84" in length.

800 lb Safe Working Load

Addresses a majority of your bariatric resident population weight requirements. 800 lb. safe working load allows even your heaviest residents to benefit from the variable heights and positions standard with the NOA Bariatric Bed.

Lock It In Place

The Bariatric Bed can be moved at any height, at any position or locked in place.

Recliner Position

For added comfort, the bed can be put into a Recliner Position with the bed in a Reverse Trendelenberg position and the knee gatch and head deck raised for greater resident comfort.

Trolley System

NOA Bariatric Beds come with a trolley system which allows movement of the bed from one room to the other or upright storage to save space when not in use.
